

UTENSIL WASHERS / AU RANGE

Specifications fo the range:

Sturdy functional design that is easy to use. That's what you get with Aristarco warewashers, ideal for washing pots and pans, baskets and large utensils, guaranteeing high performance and total reliability.

The AU utensil washers range, entirely made of stainless steel, have a double-skinned insulated body that gives them thermal insulation and a complete silence.

The control panel with new signs and colours is easy to use in order to facilitate the user task.

The wash tank is entirely preformed with rounded corners to prevent build-up of dirt and to facilitate daily cleaning operations. The self-cleaning wash tank automatically conveys residues to the drain ensuring an excellent wash performance.

Surface filters can be removed for carrying out cleaning operations and prevent dirt and food residues from entering the tank maintainin washing water clean longer. It moreover features a vent on the top to rapidly eliminate steam generated during the washing cycle.

Rinsing and washing system is based on the top and bottom rotation spray arms made of stainless steel tubes. They are designed to be fully removable to facilitate their cleaning and therefore to ensure them a longer life.

The AU line also includes compact utensil washers with features from the AP, AS, AL and AH ranges respectively.
